

## Aluminium Spray Gun Accessories

### Every cleaning scenario covered

### Product Codes: 5220 (Spray Nozzle Professional Set) & 5210 (Brush Set)

This range of 8 spray attachments are simply, yet confidently, plugged onto the spray gun tip. Robust engineering ensure these remain attached, even under high pressure.

The set includes tips that are capable of cleaning catheters, drainage hoses, surfaces, hollows, syringes, cannulas, pipettes, bottles & Erlenmeyer flasks with the addition of a jet pump attachment for the suction of angles and hollows.

The attachments are available singularly or as a set complete with attachment holder.

To complement the aluminium spray guns further is the brush set, available as single brushes, a multi pack of 5 brushes, or a complete set of 7 attachments.

The set comprises an angled pipe nozzle (250mm long), a straight pipe nozzle (270mm long), brushes with a 12mm diameter in 134mm & 184mm lengths, brushes with a 40mm diameter in 130mm & 180mm lengths and a round brush with a 40mm diameter.

Also available are wall & table mounts for the the spray guns, together with an array of spare parts, details of which can be found under Spray Gun Spares on the website.
