

Complete Cleaning Brush Kit

**A complete set of the most popular brushes
conveniently packaged in one kit**

**Product Code: CCBRK-1 1 (with brush storage rack)
RPCBRK-1 (without brush storage rack)**

The Complete Instrument Cleaning Brush Kit is a full set of over a dozen brushes.

The Instrument Cleaning Kit includes a full set of cleaning brushes for all of your medical instruments and equipment.

Two of the brushes are designed for the cleaning of standard-sized tubes, channels and lumens.

There are also four Tube Brushes for small diameter tubes and channels and five cleaning brushes for extra long tubes and channels.

The two toothbrush style brushes (nylon and stainless steel bristles) are ideal for cleaning a variety of instruments or even trays.

(The appropriate brush must be used in compliance with any given instrument's IFU or manufacturers recommendations)
